# Core Chock<sup>®</sup>

Patent D557297

- Accepts Bar Coding

- Easy to Write On

- Fits in the Core Box

- UW and Weather Resistant
- HQ and NQ Sizes Available

This newly designed Core Chock provides for ease of use and it accepts more information in the form of written or bar code. The Core Chock is designed to fit into the new Core Box. This product is unique because it is designed for a bar code system for the ultimate information storage. The EVCO Core Chock is available in the 2 1/2" diameter HQ and the 2" diameter NQ size.
