Miners Moss / Sluice Box Matting / FOB Pahrump Nv.

Geolaser Yukon Dredgers Moss (part#GYDM) Rolls are 20ft (6.1 meters) long & +/- 1/2" thick.

| Width | Wt.pounds | MSRP |
|-------|-----------|-------|
| 12" | 10 | \$30 |
| 24" | 20 | \$60 |
| 36" | 30 | \$90 |
| 48" | 40 | \$120 |

Geolaser Klondike Miners Moss (part#GKMM) Rolls are 20ft long & +/- 3/4" thick.

| | | |
|-----|----|-------|
| 24" | 30 | \$200 |
| 48" | 60 | \$400 |

Geolaser Klondike Miners Moss "Backed" (part#GKMMB) Rolls are 20ft long, +/- 3/4" thick.

| | | |
|-----|----|-------|
| 48" | 75 | \$500 |
|-----|----|-------|

1/8" ribbed rubber mat (part#H-1990) Sold by LF.

| | | |
|-----|-----|-----|
| 36" | 2.5 | \$9 |
|-----|-----|-----|

The "Klondike Miners Moss" is made for larger sluice boxes in commercial mining operations. It is nearly 3/4" thick and gives large volumes of fine gold a secure place to hide. It is dense enough that riffles will not sink into it.

The "Yukon Dredgers Moss" is an acceptable substitute for the 3M 1500 Nomad matting which has been the standard miners moss used for decades. It is a little stiffer and won't allow the riffles to sink in.

3M "Nomad" miners moss
